WORK NOTICE

SITE INVESTIGATION FIELD ACTIVITIES

**Former D & M Drum Company Site
137 South Lilac Avenue, Rialto, California**

Fieldwork activities related to the ongoing environmental investigations at the former D & M Drum Company site are scheduled to begin November 7, 2007 and will continue through to November 9, 2007, from approximately 8 a.m. until 5 p.m.

Fieldwork activities will consist of sampling and analysis of soil, installation of soil vapor probes, and sampling and analysis of soil vapor. The soil vapor probes will be installed on the former D & M Drum Company site, and also on the property adjacent and to the north of the site. A licensed contractor, working on behalf of the Department of Toxic Substances Control (DTSC) will perform the fieldwork.

No significant noise is expected. No street closures are planned, and therefore traffic should not be affected.

The DTSC Workplan is available for viewing at the following location:

Department of Toxic Substances Control
Regional Records Office
